

Research Diary

Record of research activities

Date of	What I did	What I learnt	What I might do in the future
Example entry 1 st May	Prepared my research question and discussed it with my teacher.	The research question could be answered in lots of different ways. Some ways are not giving me information I am looking for.	Re-write the question thinking about the ideas we discussed. Try out the question on some friends to see if it works better to give me information I want.
